

VIDEO TRANSCRIPT: “Need for a Western Sydney Airport” ANIMATION

Time	Visual	Voiceover
00:00	<p>The camera opens onto a satellite image of the entire world centred on Asia as seen from space. Lines shoot out and travel to Western Sydney from a number of international and national destinations as the world zooms in on Western Sydney. These destinations include Dubai, Singapore, Hong Kong, Manila, Tokyo, Darwin, Cairns, Brisbane, and Perth. The shot then zooms quickly on a satellite image of Australia and Western Sydney.</p> <p>The next shot establishes a satellite image of the Western Sydney, bordered by the Blue Mountains to the west, the Hills District to the north, the Sydney CBD to the east, and Campbelltown to the south. The Western Sydney Airport site is highlighted by a pulsating, black-and-white circle. The Sydney M-road network is shown, with the M2, M4, M7, M1 and the Hume Motorway M31 labelled.</p>	<p>An airport for Western Sydney promises to be one of Australia’s most exciting infrastructure projects in decades and will ensure Sydney remains Australia’s gateway to the world.</p>
00:11	<p>The camera slowly zooms in on the airport site on the satellite image, with Badgerys Creek labelled in the centre-left of the shot, as well as Penrith in the north-west; Eastern Creek to the north-east; Parramatta, Sydney CBD and Liverpool to the East; and Narellan to the south. The location of Sydney Airport at Mascot is also labelled in the east.</p> <p>A caption flashes on screen which reads “Aviation demand in Sydney forecast to double to 87 million annual passengers over the next 20 years”.</p>	<p>The number of people travelling by air in the Sydney region is expected to more than double to around 87 million passengers a year over the next 20 years.</p>
00:22	<p>The camera fades to a wide shot of Sydney Airport and Port Botany in the day time, with Sydney CBD in the background.</p> <p>A caption flashes on screen which reads “Sydney Airport served 39 million passengers in 2015”. A graphic of a person with a suitcase appears with the caption.</p>	<p>Sydney’s current aviation capacity cannot handle this growing demand alone,</p>
00:28	<p>The camera cuts to a shot of a plane landing and rolling on a runway at Sydney Airport.</p> <p>A caption flashes on screen which reads “\$34 billion could be lost to the economy by 2060”. A graphic of piles of coins also appears with the caption, and disappears slowly.</p>	<p>and if no action is taken, Australia could forego billions of dollars to the national economy.</p>

Time	Visual	Voiceover
00:35	<p>The camera cuts back to a close zoom of the satellite image of the Western Sydney Airport site at Badgerys creek, where the outline of the site is highlighted in light blue. The site is bordered to the north by Elizabeth Drive, to the east and south by Badgerys Creek, and goes beyond The Northern Road to the west.</p> <p>The satellite image slides to the right with the airport site on the left, and two captions appear which read “Will meet future aviation demand”, including an aeroplane graphic; and “Economic benefits now and for future generations to come”, with two coin-stack graphics.</p>	<p>A Western Sydney Airport at Badgerys Creek will meet future aviation demand and provide economic benefits now and for generations to come.</p>
00:46	<p>The camera cuts to a street scene of the mall at Church Street, Parramatta where people are shopping and walking around.</p> <p>A caption flashes on screen with a graphic showing many individual people. The caption reads “Population of 2 million people”.</p> <p>The camera then cuts to a close-up shot of people’s legs and feet as they walk on a road.</p> <p>A caption flashes on screen with a graphic showing tall buildings. The caption reads “Fourth-largest city”.</p>	<p>With a population of two million people, Western Sydney would be Australia’s fourth-largest city in its own right.</p>
