

VIDEO TRANSCRIPT: “Roads and transport connections” ANIMATION

Time	Visual	Voiceover
00:00	<p>The camera zooms out on the satellite image and show the airport site highlighted in the bottom left corner of the screen. Three pictures flash on screen which show the Bringelly Road Upgrade construction as part of the Western Sydney Infrastructure Plan.</p> <p>A caption flashes on screen which reads “\$3.6 billion for Western Sydney road upgrades”.</p> <p>The satellite image shows four roads which glow bright blue. These roads are part of the Western Sydney Infrastructure Plan road upgrades. They include: The Northern Road, Bringelly Road, the new M12 Motorway and Werrington Arterial Road. Labels mark these road upgrades, as well as The Northern Road and Bringelly Road Interchange and the diversion of The Northern Road.</p>	<p>Good transport links will be essential for the airport. The Australian and NSW governments have committed \$3.6 billion to the Western Sydney Infrastructure Plan. This program will provide major road and transport linkages to the airport, before it opens in the mid-2020s.</p>
00:18	<p>The camera zooms in on the glowing M12 Motorway, which runs from the M7 in the east to The Northern Road in the west, with an access point to the Western Sydney Airport site to the south.</p>	<p>The new M12 Motorway will be the major access road to the airport site.</p>
00:24	<p>The camera cuts to footage of two New South Wales TrainLink trains pulling into a station.</p>	<p>The Australian and NSW governments are now working together so that rail infrastructure is in place at the right time.</p>
00:33	<p>The camera cuts to aerial footage of the Badgerys Creek site showing bodies of water, a very hilly landscape, trees, and a power line.</p>	<p>Preparing the Badgerys Creek site for construction will be a significant task.</p>
